- \*Rush Turn-Around-Times are calculated based on the average minimum time required to complete the test and remain compliant with the applicable test standard.
- \*Rush Turn-Around-Time prioritizes rush testing over other requested testing and dedicates a technician to complete the rush testing as quickly as possible. Rush Turn-Around-Times are estimates only, and do not guarantee test completion within the estimated rush testing time-frame.
- \*Test duration is the amount of time required to perform the test once started. Test start times are dependent on available labor and equipment.
- \*The Testing fees and test durations listed reflect the standard business hours required to perform the test. Samples requiring premium handling will incur additional hourly personnel charges in accordance with the Laboratory Technician Rate presented on our Fee Schedule.
- Add three days to the estimated test duration for soil testing that requires remolded specimens.
- The above fees are reviewed annually and are subject to change. Additional tests are available upon request.
- Prices exclude field collection and transportation to the laboratory.
- Supplemental fees for laboratory preparation of specimens are charged on an hourly basis.
- Where tests are to be run on an immediate need basis (tests to be initiated out of order received and regardless of status of other previously received samples) the expediting fee is 100% of the listed unit rate.
- Sample storage is \$100 per month per cubic yard of storage space.
- There is a 3 pm cut-off time for sample delivery/test start time.
- Turnaround times are based on samples delivered to the laboratory before 3:00 pm. Turnaround on samples received after 3:00 pm will begin at 7:00 am the following business day.
- Concrete compression breaks requested prior to the scheduled break date and/or prior to 7 am will be considered rush testing requests and billed a rush fee.
- Witness testing will be billed at \$150.00/hour per individual witness.
